

ARIES Workforce Alert

Release 07/01/2022

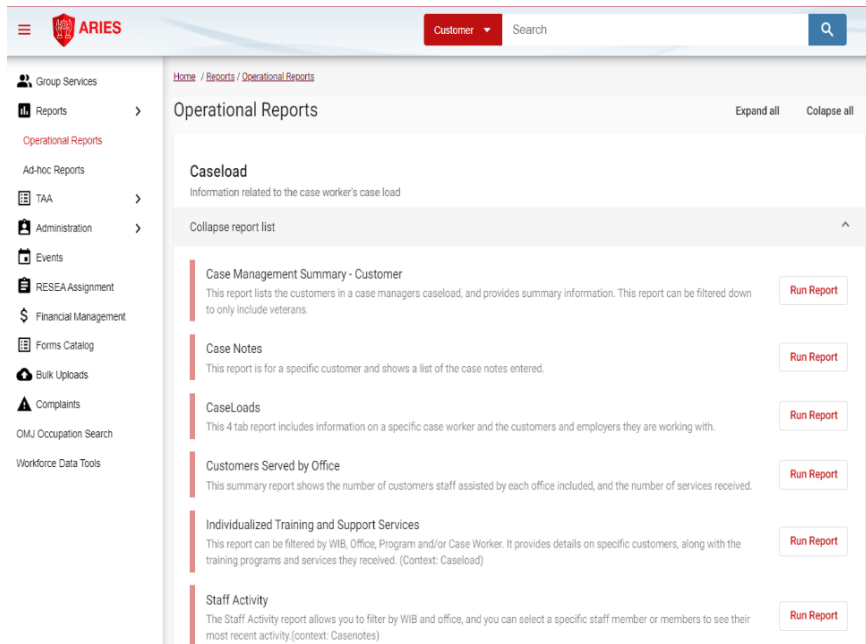

Good afternoon:

The ARIES team would like to share some updates regarding the ARIES project. We will continue to provide additional updates as they become available.

- Now that the ARIES system has gone live, effective today we have sunset the CMAdmin@jfs.ohio.gov email box. All ARIES questions or concerns should be submitted through the ARIES chat or to ARIES_Helpdesk@jfs.ohio.gov.
- As mentioned earlier this week there was a release last night that we are extremely hopeful will correct many of the issues that users are experiencing. We are currently testing the release and determining the success of each item. Information will be provided in the mid-week ARIES Workforce Alert regarding the items that have been resolved as well as guidance on how to proceed.

ARIES tip of the day:

You have information regarding your caseload at your fingertips. Simply select “Operational Reports” on the left navigation bar. You will then be presented with several selections on the main part of the screen. There you will click on caseload where you will be presented with a variety of reports that you can run.

Sincerely,

The ARIES Team
